Value and Responsibility are deeply embedded at the core of the company. The company lays equal emphasis on growth as well as being responsible, and therefore, follows a holistic approach of 'responsible growth'.

Transparency, Integrity, Governance and Accountability are central to the company's day to day functions and decisions. The Company inculcates and instills strong values and ethics which are framed in its Code

- Reporting process and procedure in case of any violation or non-compliance for internal purpose

Whistle-Blower Policy to safeguard Governance

The detailed whistle-blower policy of the company outlines the process to report and escalate any violation, breach, non-compliance, infringement or infraction of the Code of Conduct, including the provision for protection.

During the year, there were no violations to the Code of Conduct.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

The Company had received six complaints from its equity shareholders during the previous financial year, all of which had been resolved during the year.

Principle 2: Business should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

The Company's focus and long-term aim is to leverage the power of science to enhance and enrich human life empowering people attain more health and more happiness.

With its scientific research, the Company strives to deploy and leverage the latest developments to bridge the gap, as it were, between the requirements and needs of patients in various therapeutic areas. The Company's wide ranging research spans a large spectrum of treatment, cure and healthcare needs – from the complicated medication that targets rouge tumor cancer cells to a once-a-day glaucoma dose. And yet, the Company never loses sight of the fact that its processes and practices conform to highest benchmarks of sustainability.

Some examples :

- Novel self-dispersing Nanoparticle Technology – this overcomes the existing challenges in the water insoluble anti-cancer medication with higher drug localization into cancer cells, thus avoiding the use of toxic surfactant with the added advantage of delivering higher doses.
- Swollen Micelle Microemulsion (SMM) Technology – overcomes the problem of solubilising ophthalmic drugs

with Benzalkonium Chloride (BAK)-free solubilising technology, eliminating the use of toxic BAK which is known to damage ocular surface on chronic use.

- Wrap Matrix™ Technology – is an innovative oral controlled drug delivery system with a high drug to excipient ratio that reduces the pill size, helping patients to easily swallow tablets and pills.

The Company is currently developing several products based on New Drug Delivery Platforms like GRID, Wrap Matrix™ Technology, etc. and is also working on New Drug discovery.
